*(Announcements)*PROCEDURES RELATING TO THE IMPLEMENTATION OF THE COMMON
COMMERCIAL POLICY

EUROPEAN COMMISSION

**Notice of initiation of an expiry review of the anti-dumping measures applicable to imports of
certain tube and pipe fittings originating in Turkey, Russia, Korea and Malaysia**

(2018/C 31/08)

Following the publication of a Notice of impending expiry⁽¹⁾ of the anti-dumping measures in force on the imports of certain tube and pipe fittings originating in Turkey, Russia, Korea and Malaysia, the European Commission (‘the Commission’) has received a request for review pursuant to Article 11(2) of Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union⁽²⁾ (‘the basic Regulation’).

1. Request for review

The request was lodged on 25 October 2017 by the Defence Committee of the Steel Butt-Welding Fittings Industry (‘the applicant’) on behalf of Union producers representing ca. 51 % of the total Union production of certain tube and pipe fittings.

2. Product under review

The product subject to this review is tube or pipe fittings (other than cast fittings, flanges and threaded fittings), of iron or steel (not including stainless steel), with a greatest external diameter not exceeding 609,6 mm, of a kind used for butt-welding or other purposes, currently falling within CN codes ex 7307 93 11, ex 7307 93 19 and ex 7307 99 80 (TARIC codes 7307 93 11 91, 7307 93 11 93, 7307 93 11 94, 7307 93 11 95, 7307 93 11 99, 7307 93 19 91, 7307 93 19 93, 7307 93 19 94, 7307 93 19 95, 7307 93 19 99, 7307 99 80 92, 7307 99 80 93, 7307 99 80 94, 7307 99 80 95 and 7307 99 80 98) (‘the product under review’), and originating in Turkey, Russia, Korea and Malaysia.

3. Existing measures

The measures currently in force are a definitive anti-dumping duty imposed by Commission Implementing Regulation (EU) No 1283/2014⁽³⁾, as amended by Implementing Regulation (EU) 2016/306⁽⁴⁾, against imports from Korea and Malaysia and a definitive anti-dumping duty imposed by Council Implementation Regulation (EU) No 78/2013⁽⁵⁾ against imports from Russia and Turkey.

There are also measures in place against the product under review originating in China, which were extended to Taiwan, Indonesia, Sri Lanka and the Philippines⁽⁶⁾.

⁽¹⁾ OJ C 466, 14.12.2016, p. 20.

⁽²⁾ OJ L 176, 30.6.2016, p. 21.

⁽³⁾ Commission Implementing Regulation (EU) No 1283/2014 of 2 December 2014 imposing a definitive anti-dumping duty on imports of certain tube and pipe fittings, of iron or steel, originating in the Republic of Korea and Malaysia following an expiry review pursuant to Article 11(2) of Council Regulation (EC) No 1225/2009 (OJ L 347, 3.12.2014, p. 17).

⁽⁴⁾ Commission Implementing Regulation (EU) 2016/306 of 3 March 2016 amending Implementing Regulation (EU) No 1283/2014 imposing a definitive anti-dumping duty on imports of certain tube and pipe fittings, of iron or steel, originating in the Republic of Korea and Malaysia following an interim review pursuant to Article 11(3) of Council Regulation (EC) No 1225/2009 (OJ L 58, 4.3.2016, p. 38).

⁽⁵⁾ Council Implementing Regulation (EU) No 78/2013 of 17 January 2013 imposing a definitive anti-dumping duty and collecting definitely the provisional duty imposed on imports of certain tube and pipe fittings of iron or steel originating in Russia and Turkey (OJ L 27, 29.1.2013, p. 1).

⁽⁶⁾ OJ L 282, 28.10.2015, p. 14.

4. **Grounds for the expiry review**

The request is based on the grounds that the expiry of the measures would be likely to result in continuation and/or recurrence of dumping and continuation and/or recurrence of injury to the Union industry.

4.1. ***Allegation of likelihood of continuation and/or recurrence of dumping***

The allegation of likelihood of continuation of dumping for Turkey is based on a comparison of domestic price with the export price (at ex-works level) of the product under review when sold for export to the Union.

In the absence of reliable data on domestic prices for Russia, the allegation of likelihood of continuation of dumping is based on a comparison of a constructed normal value (manufacturing costs, selling, general and administrative costs (SG&A) and profit) in Russia with the export price (at ex-works level) of the product under review when sold for export to the Union.

The allegation of likelihood of recurrence of dumping for Korea is based on a comparison of domestic price with the export price (at ex-works level) of the product under review when sold for export to the US, in view of the absence of significant import volumes from Korea to the Union.

In the absence of reliable data on domestic prices for Malaysia the allegation of likelihood of recurrence of dumping is based on a comparison of a constructed value (manufacturing costs, selling, general and administrative costs (SG&A) and profit) in Malaysia with the export price (at ex-works level) of the product under review when sold for export to the US, in view of the absence of significant import volumes from Malaysia to the Union.

On the basis of the above comparisons, which show dumping for the four countries concerned as alleged by the applicant, the Commission considers that there is a likelihood of continuation of dumping from Turkey and Russia and a likelihood of recurrence of dumping from Korea and Malaysia.

4.2. ***Allegation of likelihood of continuation or recurrence of injury***

The applicant alleges the likelihood of continuation or recurrence of injury.

In this respect, the applicant showed that, even after restructuring, the Union industry is still in a fragile situation. A revocation of the anti-dumping measures on imports from Turkey, Russia, Korea and Malaysia would lead to a further deterioration of an already difficult situation.

The applicant has also provided sufficient evidence showing that, should measures be allowed to lapse, the current import level of the product under review from the countries concerned to the Union is likely to increase due to the potential of the manufacturing facilities of the exporting producers in the countries concerned. In addition, as the United States have imposed high anti-dumping duties against some of the most important exporters to the EU, there is a risk of trade diversion from those markets to the EU if measures lapse.

The applicant further indicates that exports from the four countries concerned at dumped prices exerted a price pressure on the European Union industry in some cases for more than a decade, and that the prices have not yet gone back to what would be a level playing field and healthy competition.

Therefore, as indicated by the applicant, the existing measures would still be necessary to prevent the recurrence of massive imports at dumped and injurious prices.

5. **Procedure**

Having determined, after consulting the Committee established by Article 15(1) of the basic Regulation, that sufficient evidence exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11(2) of the basic Regulation.

The expiry review will determine whether the expiry of the measures would be likely to lead to a continuation or recurrence of dumping of the product under review originating in the countries concerned and a continuation or recurrence of injury to the Union industry.

5.1. ***Review investigation period and period considered***

The investigation of a continuation or recurrence of dumping will cover the year 2017 ('the review investigation period'). The examination of trends relevant for the assessment of the likelihood of a continuation or recurrence of injury will cover the period from 1 January 2014 to the end of the investigation period ('the period considered').

5.2. Procedure for the determination of a likelihood of continuation or recurrence of dumping

Exporting producers⁽¹⁾ of the product under review from the countries concerned, including those that did not cooperate in the investigations leading to the measures in force, are invited to participate in the Commission investigation.

5.2.1. Investigating exporting producers

Procedure for selecting exporting producers to be investigated in Turkey, Russia, Korea and Malaysia

In view of the potentially large number of exporting producers in the four concerned countries involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit the exporting producers to be investigated to a reasonable number by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary, and if so, to select a sample, all exporting producers, or representatives acting on their behalf, including the ones who did not cooperate in the investigations leading to the measures subject to the present review, are hereby requested to make themselves known to the Commission. These parties have to do so within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their company(ies) requested in Annex I to this Notice.

In order to obtain the information it deems necessary for the selection of the sample of exporting producers, the Commission will also contact the authorities of the countries concerned and may contact any known associations of exporting producers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the exporting producers will be selected based on the largest representative volume of production, sales or exports which can reasonably be investigated within the time available. All known exporting producers, the authorities of the countries concerned and associations of exporting producers will be notified by the Commission, via the authorities of the countries concerned if appropriate, of the companies selected to be in the sample.

In order to obtain the information it deems necessary for its investigation with regard to exporting producers, the Commission will send questionnaires to the exporting producers selected to be in the sample, to any known association of exporting producers and to the authorities of the four concerned countries.

All exporting producers selected to be in the sample will have to submit a completed questionnaire within 37 days from the date of notification of the sample selection, unless otherwise specified.

Without prejudice to the possible application of Article 18 of the basic Regulation, companies that have agreed to their possible inclusion in the sample but are not selected to be in the sample will be considered to be cooperating ('non-sampled cooperating exporting producers').

5.2.2. Investigating unrelated importers

Unrelated importers of the product under review from Russia, Turkey, Korea and Malaysia to the Union, including those that did not cooperate in the investigation leading to the measures in force are invited to participate in this investigation.

In view of the potentially large number of unrelated importers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit to a reasonable number the unrelated importers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all unrelated importers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to the present review, are hereby requested to make themselves known to the Commission. These parties must do so within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their companies requested in Annex II to this Notice.

⁽¹⁾ An exporting producer is any company in the country concerned which produces and exports the product under review to the Union market, either directly or via third party, including any of its related companies involved in the production, domestic sales or exports of the product under review.

In order to obtain information it deems necessary for the selection of the sample of unrelated importers, the Commission may also contact any known associations of importers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the importers may be selected based on the largest representative volume of sales of the product under review in the Union which can reasonably be investigated within the time available. All known unrelated importers and associations of importers will be notified by the Commission of the companies selected to be in the sample.

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled unrelated importers and to any known association of importers. These parties must submit a completed questionnaire within 37 days from the date of the notification of the sample selection, unless otherwise specified.

5.3. **Procedure for the determination of a likelihood of a continuation or recurrence of injury**

In order to establish whether there is a likelihood of a continuation or recurrence of injury to the Union industry, Union producers of the product under review are invited to participate in the Commission investigation.

5.3.1. *Investigating Union producers*

In view of the large number of Union producers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission has decided to limit the Union producers to be investigated to a reasonable number by selecting a sample (this process is also referred to as 'sampling'). The sampling is carried out in accordance with Article 17 of the basic Regulation.

The Commission has provisionally selected a sample of Union producers. Details can be found in the file for inspection by interested parties. Interested parties are hereby invited to consult the file (for this they should contact the Commission using the contact details provided in Section 5.7 below). Other Union producers, or representatives acting on their behalf, including Union producers who did not cooperate in the investigations leading to the measures in force, that consider that there are reasons why they should be included in the sample must contact the Commission within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*.

All interested parties wishing to submit any other relevant information regarding the selection of the sample must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

All known Union producers and/or associations of Union producers will be notified by the Commission of the companies finally selected to be in the sample.

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled Union producers and to any known associations of Union producers. These parties must submit a completed questionnaire within 37 days from the date of the notification of the sample selection, unless otherwise specified.

5.4. **Procedure for the assessment of Union interest**

Should the likelihood of continuation or recurrence of dumping and injury be confirmed, a decision will be reached, pursuant to Article 21 of the basic Regulation, as to whether maintaining the anti-dumping measures would not be against the Union interest. Union producers, importers and their representative associations, users and their representative associations, and representative consumer organisations are invited to make themselves known within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified. In order to participate in the investigation, the representative consumer organisations have to demonstrate, within the same deadline, that there is an objective link between their activities and the product under review.

Parties that make themselves known within the above deadline may provide the Commission with information on the Union interest within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified. This information may be provided either in a free format or by completing a questionnaire prepared by the Commission. In any case, information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.

5.5. **Other written submissions**

Subject to the provisions of this Notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence. Unless otherwise specified, this information and supporting evidence must reach the Commission within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*.

5.6. **Possibility to be heard by the Commission investigation services**

All interested parties may request to be heard by the Commission investigation services. Any request to be heard must be made in writing and must specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within the specific deadlines set by the Commission in its communication with the parties.

5.7. **Instructions for making written submissions and sending completed questionnaires and correspondence**

Information submitted to the Commission for the purpose of trade defence investigations shall be free from copyrights. Interested parties, before submitting to the Commission information and/or data which is subject to third party copyrights, must request specific permission to the copyright holder explicitly allowing (a) the Commission to use the information and data for the purpose of this trade defence proceeding; and (b) to provide the information and/or data to interested parties to this investigation in a form that allows them to exercise their rights of defence.

All written submissions, including the information requested in this Notice, completed questionnaires and correspondence provided by interested parties for which confidential treatment is requested shall be labelled 'Limited' ⁽¹⁾. Parties submitting information in the course of this investigation are invited to reason their request for confidential treatment.

Parties providing 'Limited' information are required to furnish non-confidential summaries of it pursuant to Article 19(2) of the basic Regulation, which will be labelled 'For inspection by interested parties'. These summaries must be sufficiently detailed to permit a reasonable understanding of the substance of the information submitted in confidence.

If a party providing confidential information fails to show good cause for a confidential treatment request or does not furnish a non-confidential summary of it in the requested format and quality, the Commission may disregard such information unless it can be satisfactorily demonstrated from appropriate sources that the information is correct.

Interested parties are invited to make all submissions and requests by email including scanned powers of attorney and certification sheets, with the exception of voluminous replies which shall be submitted on a CD-ROM or DVD by hand or by registered mail. By using email, interested parties express their agreement with the rules applicable to electronic submissions contained in the document 'CORRESPONDENCE WITH THE EUROPEAN COMMISSION IN TRADE DEFENCE CASES' published on the website of the Directorate-General for Trade: http://trade.ec.europa.eu/doclib/docs/2011/june/tradoc_148003.pdf. 6. Non-cooperation

In cases where any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, findings, affirmative or negative, may be made on the basis of facts available, in accordance with Article 18 of the basic Regulation.

Where it is found that any interested party has supplied false or misleading information, the information may be disregarded and use may be made of facts available.

If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.

Failure to give a computerised response shall not be deemed to constitute non-cooperation, provided that the interested party shows that presenting the response as requested would result in an unreasonable extra burden or unreasonable additional cost. The interested party should immediately contact the Commission.

7. Hearing Officer

Interested parties may request the intervention of the Hearing Officer in trade proceedings. The Hearing Officer acts as an interface between the interested parties and the Commission investigation services. A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within specific deadlines set by the Commission in its communication with the parties.

For further information and contact details interested parties may consult the Hearing Officer's web pages on DG Trade's website: <http://ec.europa.eu/trade/trade-policy-and-you/contacts/hearing-officer/>

8. Schedule of the investigation

9. Possibility to request a review under Article 11(3) of the basic Regulation

As this expiry review is initiated in accordance with the provisions of Article 11(2) of the basic Regulation, the findings thereof will not lead to the existing measures being amended but will lead to those measures being repealed or maintained in accordance with Article 11(6) of the basic Regulation.

If any interested party considers that a review of the measures is warranted so as to allow for the possibility to amend the measures, that party may request a review pursuant to Article 11(3) of the basic Regulation.

Parties wishing to request such a review, which would be carried out independently of the expiry review mentioned in this Notice, may contact the Commission at the address given above.

10. Processing of personal data

Any personal data collected in this investigation will be treated in accordance with Regulation (EC) No 45/2001 of the European Parliament and of the Council⁽¹⁾.

⁽¹⁾ Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data (OJ L 8, 12.1.2001, p. 1).
