

Do you know that the new e-TOLL toll collection system will be launched in June?

The e-TOLL system is a modern solution based on satellite positioning technology and wireless data transmission. It will enable the payment of an electronic toll for the travel of heavy vehicles (with a GVM exceeding 3.5 tons, including buses and passenger cars with a trailer) on toll sections of motorways, expressways, and national roads in Poland.

It will replace the existing viaTOLL system. The e-TOLL system will be launched in **June 2021**. There is a transitional period in which both toll collection systems will operate - e-TOLL and viaTOLL.

The final date for the expiration of the viaTOLL system will be confirmed soon and will take place no later than 30 September 2021.

How to use e-TOLL?

1. Register in the e-TOLL system today.

Find out how to do it on etoll.gov.pl

2. Select the method of data transfer to the system.

You can choose:

- a free e-TOLL PL application, it will be available on Google Play and APP STORE
- ZSL (External Location System)
– [see the current list of approved ZSL operators](#)
- OBU (On-Board-Unit)
– [see the current list of approved OBU suppliers](#)

3. Specify the payment method for travel.

You can choose:

- a prepayment billing account
- a settlement account in the periodic payment mode with security

As part of e-TOLL, it will be possible to use the [European Electronic Toll Service \(EETS\)](#).

The e-TOLL system brings benefits to users:

- no need to conclude contracts, registration in e-TOLL is enough
- possibility to choose a tool for data transfer to the system Internet Customer Account (IKK) with comprehensive online service without the need to visit Customer Service Points
- modern forms of payment and communication channels available 24/7
- e-TOLL and SENT service in one mobile application
- intermediation of fleet card operators (FCI) in registration and fees

Do you have any questions?

- call [Customer Service Call Center](#)
800 101 101 toll-free number for landline users in Poland
+48 22 521 10 10 toll number for mobile phone users and for users from abroad / information in Polish, English, German and Russian
- e-mail kontakt@etoll.gov.pl
- visit Customer Service Points. The list of open MOKs will be available on etoll.gov.pl

Go to etoll.gov.pl and find out more.
