

Notice of retroactive assessments: Corrosion-resistant steel sheet 2 (COR2 2023 RI)

Ottawa, January 22, 2024

On January 16, 2023, the Canada Border Services Agency (CBSA) initiated a re-investigation as part of the CBSA's enforcement of the measures in force regarding certain corrosion-resistant steel sheet (COR2) originating in or exported from the Republic of Turkey (Türkiye) and the Socialist Republic of Vietnam.

Based on the analysis of information collected during the re-investigation, the CBSA has determined that retroactive assessments using the normal values determined for subject goods released into Canada from December 2021 to November 2022 could be required in some cases to ensure full compliance under the *Special Import Measures Act* (SIMA).

The CBSA is currently issuing detailed adjustment statements (DAS) to applicable importers.

For more information on the policy for the conduct of re-investigations, please refer to [Memorandum D14-1-8](#).
